PROTEIN POD

FUEL. BUILD. REPEAT.

Instant vend, fresh protein.

GYM PARTNERSHIP PROPOSAL · 2026

Your members finish training.

Recovery starts instantly.

The recovery window is 30 to 60 minutes. Most members miss it — the shake happens in a car, at home, or not at all.

Proteins still get bought — just not on your floor.

SOMATIC CELL COUNT

100,000

Conventional milk runs 200,000 to 400,000 cells per millilitre. A lower count means a healthier herd — and a measurably higher grade of supplement coming off it.

the single clearest signal of milk quality
